MIRROR FAMILY · TOOLING LAYER

LIVE

Mirror Deployer

Paste any pump.fun deployer wallet. Get reputation score, archetype, AI thesis, rug pattern. The pre-buy diligence you used to do manually on Solscan.

github.com/yksanjo/mirror-deployer

LIVE

Holder Hunt

Daily wallet-analysis quiz in \$SOAG TG. Drops a target wallet at 00:00 + 12:00 UTC. Solve with Mirror Agent. Top scorers split a \$SOAG pot.

github.com/yksanjo/holder-hunt

LIVE

SOAG Vault

Streamflow lockup of \$SOAG → mint soulbound Barutan-claw NFT badge. Badge multiplies your Holder Hunt payouts. No second token, no inflation.

github.com/yksanjo/soag-vault

LIVE

Barutan Agent

Group mascot agent in TG. Runs locally on a Raspberry Pi Zero 2W via Groq API. Ask it things. Same character as the Vault NFT badges.

Top tier · long lock

Badges are **soulbound** (non-transferable). The lock is via [Streamflow](#); the badge is a cNFT minted on lock confirmation. Multiplier applies to every Holder Hunt payout while the badge is held. Same Barutan character as the [Telegram mascot agent](#) — one IP, two surfaces.

THIS WEEK · SHIPPED

MAY 10

Token deployed on pump.fun

Solana Agent (\$SOAG) — CA ADue87...DATpump

MAY 13

Mirror Deployer shipped

github.com/yksanjo/mirror-deployer — public deployer reputation feed for pump.fun.

MAY 14

Holder Hunt live

Daily quiz bot + payout cron. github.com/yksanjo/holder-hunt

MAY 15

SOAG Vault built

Streamflow lockup + Barutan-claw badges. github.com/yksanjo/soag-vault

MAY 15

Token graduated to PumpSwap

LP 100% locked at graduation. Mint + freeze authorities revoked. RugCheck 20/100.

MAY 16

Identity hygiene shipped

Removed legacy identity references from **mirror-deployer** and **mirror-marketplace**. Pushed live: [6db14cd](#), [e1fcdf4](#).

MAY 16

Marketplace audit + waitlist relabel

Confirmed zero real users (only a test record). Cleared test record on the Pi. Marketplace marked as beta/waitlist until SOL payment flow ships.

NEXT WEEK · PRIORITIES

Ship Vault Gold tier

Deploy the highest-multiplier badge tier. Anchors the week's narrative; gives Holder Hunt players a reason to lock more \$SOAG.

Migrate mirror-deployer off the Pi

Pi 5 (1GB) is already swapping at idle. Move to Vercel free tier before any HN/PH push. ~1 hour.

Holder Hunt jackpot weekend

4x pot Fri–Sun. Gold badge holders earn 2x on top. Drives organic buys + lock activity.

Send 5 more product-led KOL DMs

Use the Mirror Deployer hook. Aim for one organic mention by week's end.

Re-verify Jupiter smart-likes count

Target 30+ within the week to trigger Jupiter Verify algorithmic pickup.

Submit Solana ecosystem directory

Form-only submission. 2–4 weeks to approve; cost = zero.

\$SOAG Community

Quiz, chat, Barutan agent, Holder Hunt puzzles, payouts. The single place everything happens.

t.me/+ywGUPczH4G1lYTbh

15 members · daily puzzle drops at **00:00 UTC & 12:00 UTC**

Daily Loop

1. Bot drops a target wallet in TG
2. Players scope it via [pumpscan](#) + Mirror Agent
3. Submit answer in chat
4. Top scorers earn \$SOAG
5. Holders with Vault badge earn **×1.2 / ×1.5 / ×2.0**

Verify on-chain · Don't trust, verify.

Every link in this document is verifiable. LP lock is at solscan.io/account/AYmfmrW7...58vb. Authorities are null on the mint page.
